Counter Top Packing System

STOCK Trays and Sealing Film

A range of different tray sizes up to 1.36 litre capacity can be used. Manufactured in HDPE, PP or PET recyclable plastics widely used in the food industry, the trays and compatible types of sealing film provide an exceptionally robust and completely hermetic and liquid-tight pack. If required, the pack can be reheated in microwave or conventional ovens.

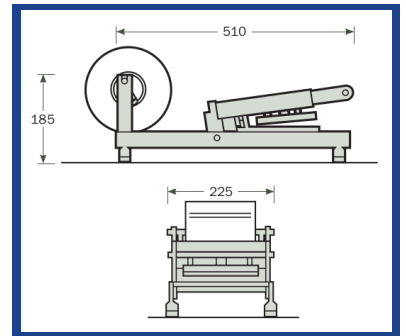

Our counter-top program gives a product presentation that is bound to impress and please your customers.

Advantages Include:

- *Compact and robust machine*
- *Excellent presentation*
- *Tamper evident, drip free and hermetic seals*
- *Fully recyclable material (HDPE, PP, PET)*
- *Stackable*
- *Tray sizes from 225ml to 1.36 litre*
- *Suitable for freezing*
- *Standard or custom die-sets*

Our program provides trays, machines, film and full support from one supplier.

TECHNICAL SPECIFICATIONS

Weight: 6.5kg (ca.)

Electric Power: 300W

Voltage: 110V, 60Hz
single phase
