

EVOLVE CIRCULARITY

Evolve food packaging consists of up to 100% recycled content coming from recycled bottles and trays and is efficiently recycled into new food grade products.

The Evolve trays come in naturally fluctuating colours only, reflecting the specific blend of recycled bottles and trays they consist of without any extra colour added. This gives a unique look to the range, and it guarantees reliable detectability.

Evolve trays provide consumers with long-awaited visual guidance to easily choose food packaging that is made from recycled content. The unique look also reminds consumers to treat the tray as a valuable resource that should be collected after use for recycling.

It complies with the strictest food regulations keeping food safe in the temperature range between -40 degrees Celsius and +220 degrees Celsius.

The range is available for a variety of applications, including frost, chill and ambient.
