

ENVIRONMENTALY Friendly bags.

Recyclable program features PE mono-material solutions optimized for the performance of conventional materials, with the added advantage of recyclability. Available in a variety of premade formats with compatible convenience features, and pre-qualified for **How2Recycle**[®] store drop-off labels to help your brand track, measure and improve the circularity of your packaging portfolio.

A Cleaner World Starts With Us

How2Recycle is a standardized labeling system that clearly communicates recycling instructions to the public. It involves a coalition of forward thinking brands who want their packaging to be recycled and are empowering consumers through smart packaging labels.

A Smarter Label System

Variation in recycling programs, unclear labeling, and inaccurate recyclability claims make proper recycling a challenge. The How2Recycle label was created to provide consistent and transparent on-package recycling information to consumers in North America.
